New IAMG Office!

The Association's office has moved to Houston. For the next few days, as we switch over to the new coordinates, please be patient if you are having problems with membership issues and contacting us.

The new address is shown on the sidebar at left.

Clicking on the menu point Member Services (for renewal, journal orders, membership directory and bulletin boards) will now transfer you directly to a new web page.

Certificates of Appreciation

The Board had agreed to give Certificates of Appreciation to **W.Edwin Sharp** who served as editor of *Mathematical Geology* from 2002 until 2006 and to **Jerry Jensen** who served as editor of *Natural Resources Research* for two full years, 2008 and 2009.

Slides of the president's address "*A short introduction to the history and the present of IAMG*" are now uploaded at **Links and Datasets**
